

George, greetings from Helmand province. Just wanted to pass along my sincere thanks for the service you and your company continues to provide. We did a 45 minute Skype video conference between a school here in Afghanistan with a school back in Los Angeles with uninterrupted, clear streaming video. It was a great event for everyone involved, especially here on the Afghan end. Thank you and Carlyn, again, for your prompt and immediate service. We'll send along some pictures so you can see the BGAN in action with the Marines, myself and our Afghan friends.
